RECOMMENDATIONS FOR COVID-19 PROTECTION

- ✓ Wear a face mask in: crowded open spaces, public transportation, enclosed spaces, including health facilities, kindergartens, schools and universities.
- ✓ Avoid crowded, closed and open spaces!
- ✓ Washing hands with soap and water or antiseptics is essential!
- ✓ Public transport and public interest units must be regularly sanitized!
- ✓ If you experience symptoms, you should be tested, see your family doctor, assessment and treatment centers, or the Emergency Room to receive the appropriate medication.
- ✓ Do not take medication without a doctor's recommendation!
